EDRS PRICE	Document Not Available from EDRS.
DESCRIPTORS	*Arithmetic; *Basic Skills; Computer Software; *Concept Formation; Elementary Education; *Multimedia Materials; *Number Concepts; Numeracy; Optical Data Disks; *Problem Solving; Spatial Ability; Word Problems (Mathematics)

ABSTRACT

Zoo Zillions contains five activities for grades K-2: Annie's Jungle Trail, 3D Gallery, Number Line Express, Gnu Ewe Boutique, and Fish Stories. These activities enable children to review and practice basic mathematics skills; identify three-dimensional shapes, watch them in motion, and create their own three-dimensional designs; locate numbers and add and subtract using a number line; master money concepts while choosing clothes and making change; and solve story problems while visiting an aquarium. Each activity has both a question and answer mode and an explore mode. Overviews of the programs are included in the documentation and a troubleshooting guide is provided. (DDR)
